Nutrition & Supplements

THE ITEMS IN THIS CATALOG meet a high threshold for quality. Azure requires transparency from all the companies we work with, and we only choose suppliers that produce foods and products made with only natural ingredients. That means you get nutrient-rich foods and products that are minimally processed with no artificial additives, no preservatives, non-GMO, no MSG, no artificial colors or flavors. That doesn't mean every item is organic. Some are made with organic ingredients but are not Certified Organic. Some go far beyond organic. They all are earth-friendly, non-GMO and meticulously chosen for their healthful qualities.

Azure's Unacceptable Ingredient List:

Artificial Colors	Certified Colors	Shellfish Products <i>(except when used as an ingredient in nutritional supplements)</i>
Artificial Flavors	Fluoride	Alcohol
Artificial Nitrates/Nitrites in Meat Products	Genetically Modified Organisms (GMOs)	Tobacco
Artificial Preservatives	Monosodium Glutamate (MSG)	
Artificial Sweeteners	Refined Conventional Sugars	
Bleached Flour	Pork Products	

A Word about "Natural" Flavorings:

Azure is currently reviewing all products that include "natural flavorings" for items that are unacceptable. All new vendors are required to sign a certification letter clearly stating that their natural ingredients do not contain any of the following items:

Monosodium Glutamate	Calcium Caseinate	Malt Flavoring
Hydrolyzed Vegetable Protein	Yeast Extract	Stock Flavoring
Hydrolyzed Protein	Textured Protein	Carrageenan Enzymes
Hydrolyzed Plant Protein	Autolyzed Yeast	
Plant Protein Extract	Hydrolyzed Oat Flour	
Sodium Caseinate	Malt Extract	

ON THE COVER: Samuel and Dash the pup take a bike ride (Samuel is the son of Meg Jenkins, our Azure Senior Writer).

What is Organic?

Organic The USDA Organic label means farmers and handlers document their processes and get inspected every year. On-site inspections include seed sources, soil conditions, crop health, weed and pest management, water systems, inputs, contamination and commingling risks and prevention, and record-keeping. Oregon Tilth Organic Certification meets standards in Europe and Canada as well as the US.

Non-GMO Genetic engineering is expressly prohibited in organic items. Producers do not use genetically modified seeds or other materials when planting crops. Producers implement preventative practices that effectively buffer their farms from GMO contamination.

The Non GMO Verified label means ingredients have been tested for GMOs by a third-party.

Healthy Soil Produce must have grown on soil that had no prohibited substances applied for three full years prior to harvest.

Natural Ingredients Foods do not contain artificial preservatives, colors, or flavors and all ingredients are organic, with some minor exceptions, like enzymes in yogurt, pectin in fruit jams, or baking soda in baked goods.

Well-treated Animals Organic meat and dairy comes from animals raised in conditions that accommodate their natural behaviors. Animals are raised without hormones or antibiotics, and graze on pastures grown on healthy soil.

Grow Your Garden with Love

Fertilizers that Help, *Not* Hurt!

- ⦿ A food base for microbial activity
- ⦿ Excellent for compost teas
- ⦿ Mixable with virtually any other inputs
- ⦿ Usable anytime during growing season
- ⦿ No run off into riparian environments
- ⦿ No toxic effects on plant growth

Gardeners can enjoy a boost of health to their plants, flowers, and trees while enriching the soil instead of harming it like so many other fertilizers do.

Inspire Healthy & Abundant Living.

THIS is what Azure is all about. It's our mission, our vision and our passion.

We inspire healthy and abundant living in our own lives first, and then in our families, our community and our customers across the country.

To inspire someone, we must radiate it from our whole being.

Our actions, our language, our appearance must contagiously speak volumes of healthy and abundant living.

Healthy means that we are living as we were created to, working with the universal laws that govern everything.

Abundant means we have lots of it—our needs are more than fulfilled!
